

GLASS SHELF

Accessory

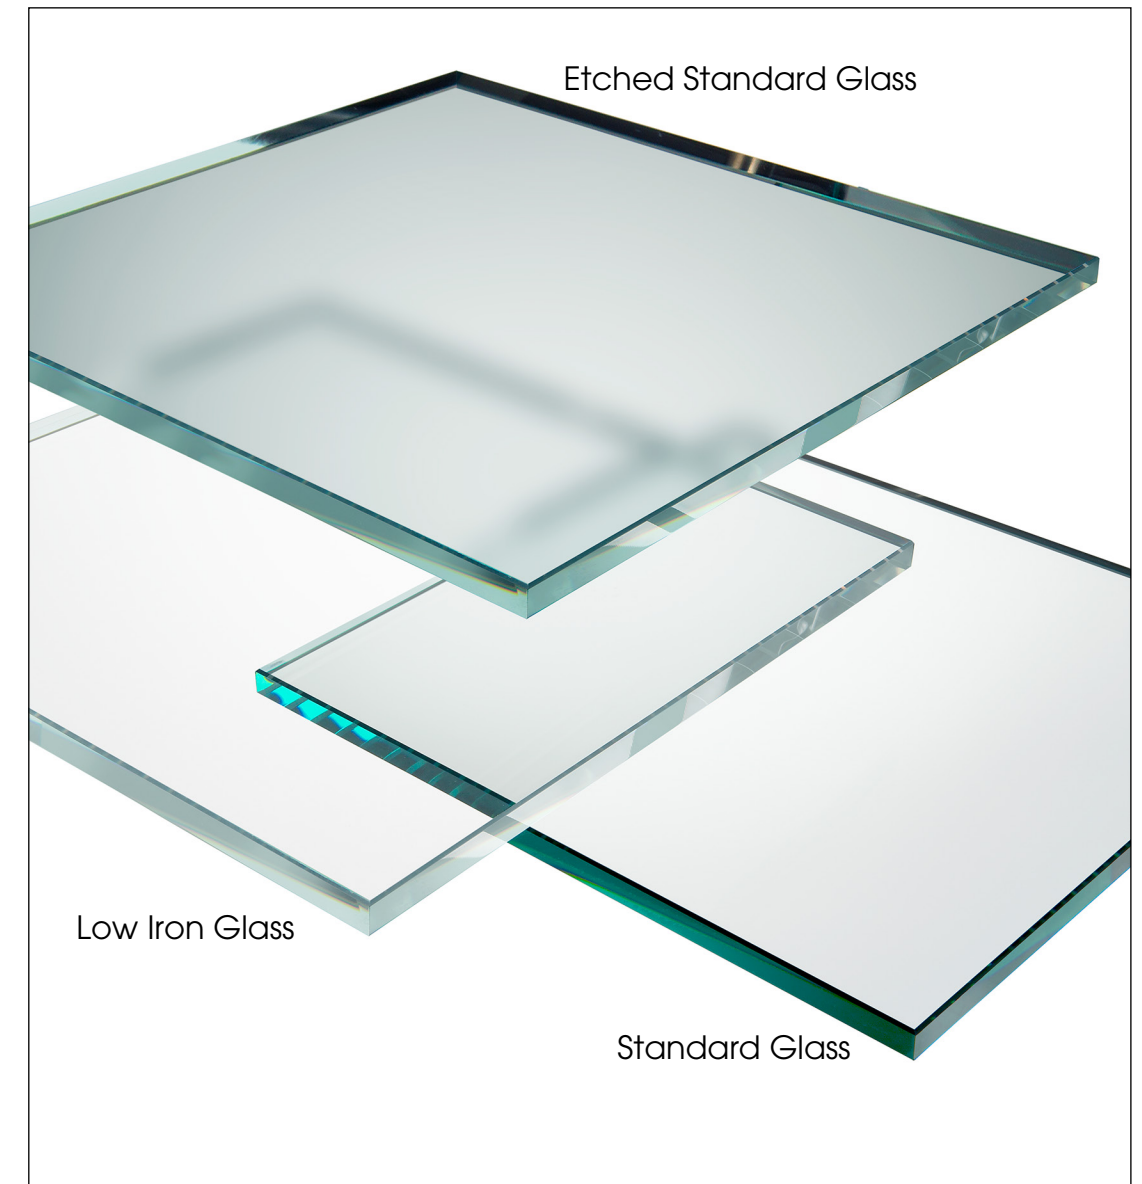

The Palmer glass shelf provides much-needed practical storage for your space, while maintaining the open feel of our leg consoles. Each shelf is custom made to your specific dimensions, and rests nicely upon our sturdy shelf supports.

Our Standard Clear glass has a slight "green" tint, is a full ½"-thick, tempered to U.S. safety standards, and machined perfectly to a smooth and defect-free polish on all edges.

For those preferring a practically colorless appearance, we offer Low Iron Optiwhite glass. Low Iron glass does not possess the traditional green cast inherent with other types of glass, making it an excellent choice for applications requiring transparency and a neutral color.

Etched glass (also known as Acid Wash), is also available offering a frosted effect and providing a degree of obscurity to the floor below. Etched glass is available in Standard Clear and Low Iron Optiwhite.

Many other types of glass are offered, such as tinted, textured, patterned, and even ceramic printed glass, offering endless possibilities. Our glass shelves are handcrafted in the USA, and will satisfy both a functional and pleasingly aesthetic solution to your storage needs.

Palmer Consoles are completely modular and custom built to any design and leg configuration
