KITCHEN ISLAND SUPPORT LEGS

Palmer Industries is a Boutique Designer & Manufacturer of Custom Architectural Metalwork

Studio Style in Un-Lacquered Polished Brass

Combining our kitchen leg systems with your base cabinetry and counter top materials, Palmer Industries can create island, peninsula, and bar configurations limited only by your imagination

Studio style kitchen legs: Modern industrial chic at its best

- available in 1.0" and 1.5" diameter as individual legs or as a configured system joined by crossbars and wall returns

Ball style kitchen legs: Timelessly classic

- available in 1.0" and 1.5" diameter as individual legs or as a configured system joined by crossbars and wall returns

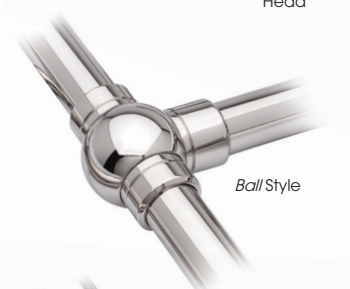

Embry style kitchen legs: Traditionally elegant

featuring a 2" diameter capital and a gracefully tapered leg
- available as individual legs

Carthage style kitchen legs: Impressively substantial

featuring robust 3" diameter tubing with well-proportioned fittings
- available as individual legs

custom
sized to your
specifications
