

GALLERY RAILS Product Brief

Palmer Gallery Rails are custom-built using solid brass components, offering crisp details, tailored sizing, and a refined finish.

Designed to accent shelving systems or elevate existing surfaces, each configuration is crafted to complement a variety of materials.

$\frac{5}{16}$ diameter Solid Brass Rails connect posts.

Available in two styles and heights.

Mounts to stone, glass, or wood shelving.

Mounting hardware provided by Palmer.

Customization

Palmer Gallery Rails are completely modular, built to order, and available to suit any size shelf.

Finishes

Available in all Palmer finishes.
